I am going to support Ramm! We need someone that cares about us and not trying to run for Lt. Governor with our pensions.

Chief,

I hope that all is well with your department. If possible, can you or a staff member provide me with the name and contact information for the head of the firefighter association within your department? Preferably, I would like to get their name, cell phone number and email address if possible. Please reply back to me if you are unable to fulfill this request or if there is not a FF association within your department. Thanks in advance for your help.
